

INVASIVE SPECIES REMOVAL DAY

July 12th 2018

Drop-off/Pick-up: 9 AM - 4 PM at
★ Auburndale Cove (175 West Pine St)

Shovel, Trowel, Pruner, Pitchfork

Long ago, the native plants lived together in harmony. Then, everything changed when the Japanese knotweed attacked. Only the Envi-Sciars, master of all 4 gardening tools could stop them, but when Newton needed them most, they vanished. A single year passed and my brother and I found the new Envi Sci 2018. I believe Envi Sci 2018 can save the environment.

What You Need to be Suited Up to Fight Environmental Crime!

Ryan with Big Gains

Long Sleeve
Long Pants
Gloves
Poison Ivy

T-Shirt
Shorts
Gets HOT

Shovel *No Need to*
Trowel Go Out to Buy
Pitchfork
Clipper/Lopper/Pruner

2+ Liters H₂O
Snack
Lunch
Daypack
Sunscreen
Bug Spray
Rain Gear
Hiking Boots

Japanese Knotweed

- Native East Asia
- Invasive in North America
- Grows fast + dense
- Crowds + Shades out other plants
- No predators in NA
- **Bad Plant**
