Leaders  
All leaders!  
Contact Geneva or David if you have any questions!

Equipment  
Check the equipment list online! You will need everything!

\* Bring Plenty of WATER! At least 2+ liters! \* hydrate or dehydrate!

Alas my children! The day has finally come! The biggest trip of the summer! We will be staying at the Lake of the Clouds hut for 3 whole days! During the second day, we will hike to the summit at a height of 6289 ft! This is the highest point in all of northeastern US. The majority of our stay will be in the alpine zone. The alpine zone is a zone that doesn't have trees because of the elevation. One of the plants that can grow there is diaspensia! The weather is also very WACK! It could be hot, cold, rainy, snowy, windy, or just right. Also, on very rare occasions, you may see an alpine buffalo! or even a 3 headed eagle!

if your child is going to be absent, please email [director.esp@newtonenvlsci.org](mailto:director.esp@newtonenvlsci.org) before 8:30 the morning before. Thanks!

In case of an emergency, your child will be brought to the Memorial hospital (603-356-5461) This program must comply with the regulations of the MASS dept of public health and must be licensed by the city of newton health dept.
